The Demartini Method® is the breakthrough discovery and cutting edge personal transformation method, which results in a new and refreshing paradigm in thinking and feeling. It was developed by Dr. John F. Demartini. It is the culmination of more than thirty years of research and studies in numerous disciplines including physics, philosophy, theology, metaphysics, psychology, astronomy, mathematics, neurology and physiology.

The Demartini Method® is:

A systematic pre-determined series of mental questions and physical actions directed toward the objective of bringing to an individual's conscious mind the states of presence and certainty, and to their physical body the feelings of gratitude and unconditional love.

A procedure that neutralizes an individual's emotional charges, balances their mental and physical reactions, opens their heart and clears their mind. A continuous thinking process and writing action repeated over a course of time resulting in a resolution of dis-equilibrated perceptions. This is a reproducible science enabling individuals to discover the underlying order governing their apparent daily chaos.

The Demartini Method® is the most powerful, effective and efficient methodology in personal transformation. It will assist you in making quantum leaps in consciousness in quantum time. What once took weeks, months or even years can now be accomplished in a matter of hours. It is a foolproof and effective means of transforming any form of stress or conflict into grateful states of love and vitality.
